### Philadelphia Had First Magazine.

The city that gave birth to the mag-  
azine is not the city from which now  
come the greater number of our  
standard and popular periodicals. Phil-  
adelphia, not New York, was the first  
city to publish a magazine. The first  
magazine was published in 1741, and  
it was called "The American Magazine."  
It was published by Benjamin Franklin,  
and it was the first of its kind in the  
world.

## "WITH THE COLORS"

Garrard County Boy Writes Of Work  
Done By Y. M. C. A.

The following letter to his mother,  
Mrs. W. A. Price of this city, writes  
interestingly of the splendid work be-  
ing done in the great army camps by  
the Y. M. C. A. So appropriate is the  
letter at this time we are publishing it  
in full.

Et. Oglethorpe, Ga., Nov. 7th.

My Dear Mother:

I have intended to write you a little  
letter concerning the work being done  
by the Y. M. C. A. that you might be  
able to give some of the folks back  
home an idea of just what the Y. M. C. A.  
is doing to help the boys in the army.  
I am sure if some of the people on the  
outside of the Army and Navy were  
aware of the many benefits that the  
Boys receive from the Y. M. C. A.,  
and the accommodating bunch of Sec-  
retaries that they have engaged in the  
field at present, they would come  
across as quickly with this amount  
these people are trying to raise as the  
same people did with the Liberty Loan  
Bond Fund.

However, the ones outside the Army  
are not entitled to all the laurels for  
raising the Liberty Loan Fund to the  
size it went as the "Boys in Khaki"  
had a big slice in that pie, for example,  
this Fort alone subscribed for a little  
over \$2,000,000, worth of Bonds which  
means that every man in the fort with  
the exception of a very few have al-  
lotted from \$5. to \$20. of their pay  
every month for this purpose, their pay  
being a per capita of seventy dollars  
and a few odd cents.

I brought in the Liberty Loan Fund  
merely to show what the boys in the  
Army are doing beside offering their  
services to their country and I believe  
that the majority of the boys will agree  
with me when I say that although this  
Liberty Loan Fund is by far the great-  
est work that has been put over lately  
the work being done by the Y. M. C. A.  
is running next in order, and I believe  
that it would be as disastrous to take  
away the benefits that the Y. M. C. A.  
gives the boys as it would be to have  
everyone recall the money they put in  
to the Bonds, the soldiers and sailors  
have gotten so accustomed to having  
the Y. M. C. A. to fall back on that  
they would be lost without it.

There are 22 buildings in Chickamauga  
Park and there is not a night in the  
week that either some kind of enter-  
tainment or religious service is held in  
each of these and it is just as you will  
note on the other side of this paper,  
"and it doesn't cost us fellows a cent".  
The single item of stationery that is  
furnished to the boys must mean an  
immense outlay in itself, there are  
three of these buildings in the im-  
mediate vicinity of the Barracks where I  
bunk and there is not a night out that  
all three of the buildings are filled to  
capacity with the boys writing letters.  
As soon as supper is over you can see  
a steady stream of boys headed for the  
Y. M. C. A. buildings to do their writ-  
ing, and you have to go early to avoid  
the rush and then the writing is mostly  
done prior to 7:30 as there is always  
a program of some kind put on at that  
hour.

These programs consist of moving  
pictures, athletic contests, musical  
programs, speeches and various other  
similar programs and the only thing  
that they sell to the soldiers are pos-  
tage stamps.

There is a large Auditorium where all  
the special programs are put on, this  
house seating about 5,000 and it is here  
that the Operas are shown, as this is  
the only stage on the grounds that is  
large enough for the large companies  
to stage their scenery. For the last  
month there has been 3 nights each  
week of Operas, as by playing for  
these nights there is a chance for every  
one who desires to see the shows to get  
a seat.

This is the third camp I have been  
stationed in, and everyone has the  
same arrangements although things  
here are on a more elaborate scale than  
any of the others and there are a great  
many more men here to be taken care  
of.

Among other of the great many ben-  
efits there are classes for the instruc-  
tion of the uneducated Americans and  
also the foreigners who are enlisted  
men in Uncle Sam's Army. I was told  
by one of the Secretaries a few days  
ago that there are over 2,000 enrolled  
in their classes for instruction in En-  
glish and that these men are from the  
primary grades up, there are also  
French classes where the French lan-  
guage is taught by Frenchmen who are  
either working with the Y. M. C. A.,  
or enlisted men, in lots of cases the  
French is taught by the boys in uni-  
form who are French.

I could continue to boast up the good  
work that is being done and if I re-  
member correctly I believe I have told  
you of a considerable amount of the  
work in previous letters but must close,  
and in closing will say that it don't  
make a bit of difference what you hear  
that the Y. M. C. A. is doing for the  
soldiers and sailors both on this side  
and "over there" you can say it is the

truth as I know from my own experi-  
ence of the work that is going on on  
this side and I have heard some of  
those who have been across and have  
come back here tell of what is going on  
"over there".

The Y. M. C. A. people say they  
don't want the soldiers' money but that  
they want the folks back home to come  
across with the financial end, they say  
the boys inside are doing their bit and  
it is up to the folks at home to help  
them stay behind the boys, and if  
everyone could realize what it means  
to the soldiers, they would donate the  
sum they ask in a good deal less time  
than the week they are going to use  
for their campaign.

Will write you again within the next  
few days.  
With love,  
John Dunn.

Might Try It, Anyhow.  
A woman of typewriter ribbon threw  
into a quart of distilled or rain water  
will yield a fine writing fluid.

What He Wanted to Find Out.  
At a certain wedding the happy pair  
were about to retire, when the younger  
brother of the bride struck his glass  
with a knife and said: "Ladies and  
gentlemen, as the young couple are  
about to leave us, I will say my re-  
marks short, I thank each and all of  
you to take up your glasses, rise to  
your feet, and see if one of you has  
not been sitting on my new hat!"

Oasis Made to Order.  
In the desert stretch between P-  
Centro and Yuma, down in the south-  
east corner of California, engineers  
made a new oasis the other day. They  
just bored a hole in the ground, and  
up came the revivifying waters. Then  
a few date seeds were dropped into  
the soil, and a few vegetables planted,  
and they will have an oasis made to  
order.

Cancer Not Hereditary.  
According to the latest statistics of  
six large life insurance companies  
compiled by an expert actuary for the  
American Society for the Control of  
Cancer, if one or even both of an in-  
dividual's parents have died of cancer,  
that individual is no more likely than  
anyone else to die of the same disease.  
It begins to look as though cancer were  
not hereditary at all, contrary to an-  
cient belief.

Put Outside the Law.  
The strictest punishment which  
still survives in Great Britain under  
modern law is that of "outlawry."  
About ten years ago a lawyer charged  
with forging a check was "outlawed"  
in the Glasgow high court. By this  
sentence the person of the accused is  
declared forfeit. He cannot bear tes-  
timony in a court, nor sue, nor defend  
in action. He cannot act on a jury,  
nor vote at an election, nor act as tu-  
tor or guardian to another person. If  
anyone robs him he has no redress.

# PUBLIC SALE

I will offer for sale at public auction, on

**Tuesday, Nov 20th, '17**

at 1:30 o'clock, my residence with one acre of  
land located on the Lancaster turnpike, about  
one mile from Paint Lick and only about 300  
yards from the Paint Lick High School. This  
is a dandy little home with good cistern and all  
necessary outbuildings.

Will also offer some house-hold and kitchen furniture; one good corn sheller;  
one garden plow and several other things. Also if not sold before, will offer  
one Ford Touring Car in good running condition. Possession given at once.

Terms made known on day of sale.
